Chadd Padd Refueling Bib

Keeping diesel, gasoline and oil from damaging a vessel's surfaces and polluting waterways is now incredibly simple. The new, patented **Chadd Padd** enables boat owners to be proactive, not just reactive. As a multi-purpose spill response solution, this reusable mat catches and contains fuel before it becomes a problem.

Providing 10" x 10" of fuel absorbing power, the waterproof Chadd Padd is anti-static treated and can

hold up to 4.5 oz. of petroleum products. Made of the same material marinas are required to have for Spill Prevention, Control and Countermeasure (SPCC) requirements, the effective pad saves owners fines and the hassle of clean up.

The Chadd Padd can be used multiple times for a variety of applications. With a perforated, partial hole design, it accommodates most filter ports for refueling or adding

oil. The pad can also be employed as a drip mat, in the bilge before pump-out or when working with hydraulic fluid. It's even disposable, in accordance with applicable regulations.

The economical Chadd Padd has a suggested retail price of just \$9.95 for a convenient 6-pack, while a roll of 36 pads is \$34.95. Enter promo code EZFUEL8 at www.chaddpadd.com to save 10%. Larger sizes, greater quantities, dispensers, Wind Chocks and other accessories are also available.

Contact Chadd Padd, PO Box 11875, Daytona Beach, FL 32120. Toll free: 888-EZ-FUEL-8 (888-393-8358). www.chaddpadd.com.

Accon Marine's Shims, Curved Shims and Gaskets

Achieving a polished appearance after mounting accessories shouldn't be difficult. Accon Marine's Shims, Curved Shims and Gaskets enable owners to simply place bimini hinges where they're needed without sacrificing style.

The 401-S Curved Shims enable the company's Quick Release Bimini

Hinges to be fitted to 1.9", 2.36" and 3" diameter tubing. Designed in silver or black, they match both stainless steel and aluminum and are constructed from UV-resistant plastic.

Accon's 401-3 Shims are great when mounting the bimini hinge at a 10 angle. Two shims can be used for a 20 angle. Available in neutral and black, they're also made from UV-resistant plastic.

The company's stylish 401-G Gaskets help create a more finished look when installing bimini hinges. Separating dissimilar metals, these gaskets are offered in white or black.

The Shims, Curved Shims and Gaskets are all easy to install. Owners simply place the shim or gasket on the curved or straight surface below the bimini hinge and fasten with two #10 screws.

The right boat to explore Puget Sound and the islands

BUILT IN THE TRADITION of Downeast Maine lobster boats, the Back Cove 29 is graceful, functional and comfortable. It's hard to imagine a better 29-foot boat for exploring the islands, harbors and bays of Puget Sound and the San Juan Islands. The hard top with full canvas enclosure allows her skipper and guests a protected space with excellent visibility. Her hard-chined hull with spoon bow, sharp entry and moderate deadrise provide a stable and comfortable ride. The single propeller and rudder are well protected behind a keel. Her single engine maximizes efficiency and fuel economy while still allowing a comfortable 20-knot cruise speed. Below deck, her interior offers overnight accommodations for two with a complete galley, head, and convertible dinette.

Originally kept on the Great Lakes, this Back Cove 29 is lightly used and in excellent condition. Equipped with Side Power bow thruster, Raymarine C120 chartplotter and autopilot, reverse cycle heat and air conditioning, and the upgraded 315 horsepower Yanmar diesel, she is ready to cruise now.
